1. The following air activity and aircraft were observed at Wittstock airfield between 17 June and 22 July 1955: 25X1
 - 17 June. In the morning, jet fighters made flights individually or in elements of two. In the afternoon, flying in formations of two and four was observed.
 - 18 June. Only individual take-offs of jet fighters were seen. One single-engine low-wing aircraft took off.
 - 25 June. Jet fighters made individual local flights.
 - 27 June. Between 2200 until about midnight, there was air activity by jet fighters. Two aircraft were aloft at the same time. Three searchlights were in operation during night air activity.
 - 28 June. Jet fighters practiced flying individually and in elements of two. The take-off of a twin-engine transport aircraft and the landing of a single-engine high-wing monoplane was seen.
 - 13 to 15 July. Jet fighters practiced flying individually and in elements of two.
 - 18 July. There was intensified air activity including individual flights and flights in elements of two aircraft.
 - 20 July. Aircraft practiced flying individually and in elements of two.
 - 21 July. There was intensified air activity. Only individual flights were seen.
 - 22 July. Flying was practiced individually and in formations of two and four. 1 25X1
2. At 0930 on 22 July, individual jet fighters practiced flying at high altitudes at Wittstock airfield. 1
3. It was learned that a Major Shilnui (fnu) was supply officer at Wittstock airfield and not Shilnuik as had previously been reported.

25X1

1. Comment. Presumably, Wittstock airfield is still occupied by one fighter regiment. Intensive air activity was observed, especially formation flying as has also been reported at other fighter airfields in East Germany.

25X1

2. Comment. This has been reported previously.
